

SUMMARY

B.Tech graduate from Pimpri Chinchwad College of Engineering, Pune, with a strong focus on data analysis and machine learning. Developed and deployed real-time projects using Python, alongside designing interactive dashboards in Power BI. Proficient in SQL for data extraction and analysis, with expertise in data mapping and user acceptance testing. Demonstrates strong analytical skills to identify trends and insights, while effectively managing client relationships to drive business growth.

EXPERIENCE

Sumago Infotech Private Limited

Jan 2025 – Jul 2025

Data Analyst Intern

Contributed to business intelligence and analytics initiatives by building interactive Power BI dashboards and applying machine learning models to solve real-world data challenges. Worked closely with cross-functional teams to design visually engaging and data-driven reports using Power BI and Figma. Recognized as **Best Performer of the Month** for exceptional contribution and teamwork.

PROJECTS

ClaimCraft – Intelligent X12 EDI Parsing & Validation Platform

Designed and developed a GenAI-powered healthcare claims validation platform for US Healthcare standards (837P, 837I, 835, 834). Engineered a Python-based parser with 400+ HIPAA 5010 validation rules and integrated Groq-powered LLM support for simplified error explanations. Built the full-stack solution using FastAPI and React.

PhishGuard – Cybersecurity Threat Detection System

Developed a machine learning-powered phishing detection website capable of identifying spam emails, harmful files, and malicious SMS messages. Implemented algorithms such as Random Forest and SVM, with a FastAPI backend and web-based frontend for real-time protection.

HeartGuard Analytics – AI-Based Cardio Risk Prediction

Created an AI-powered health prediction platform that assesses heart disease risk while explaining results using SHAP visualizations. Integrated a conversational AI assistant for health-related queries and enabled downloadable reports. Built with React, FastAPI, and machine learning pipelines.

EDUCATION

Bachelor of Technology in Computer Science (AI & ML)

Pimpri Chinchwad College of Engineering, Pune

Diploma in Computer Technology

Government Polytechnic, Nashik

91.41%

SSC

D.D. Bytco Boys High School

91.80%

TECHNICAL SKILLS

Programming & Development: Python, Java, C++, C, JavaScript, SQL
Frameworks & Tools: FastAPI, React, Node.js, Express, Next.js, GitHub
Data & AI: Machine Learning, TensorFlow, Power BI, SHAP, Data Analysis
Databases: MySQL, MongoDB
Professional Skills: Analytical Thinking, Leadership, Collaboration, Adaptability

CERTIFICATIONS & ACHIEVEMENTS

Google Data Analytics Certificate

MySQL Certification

Best Pitch Award

Google

Udemy

Inspiron 5.0
